

ICON Wi-Fi

Vertical shaped low consumption radiators with WiFi controls and ambient led light

Radialight App  
disponibile su:

Home automation because time is your most precious resource. Ambient led light to create a unique atmosphere in your room. Protruding only 45 cm. ICON WiFi electric radiant heater is the perfect union of design, piece of furniture, technology, comfort and energy saving. DUAL-THERM technology that combines infrared radiant heating and natural convection, remotely controlled through your smartphone for a unique comfort experience. The new RADIALIGHT App makes it possible that you individually manage each radiator, schedule

operation on a weekly basis and view consumption statistics in real time. The connection between the radiators and the router of your home is direct through Wi-Fi and therefore it will not be necessary to install bridges or intermediate terminals.

Total and precise control of the comfort of your home, wherever you are, in the simplest way possible, with just one touch of your fingers.

Discover the new generation of ICON vertical WiFi radiators.

## Heating Style

Optimized comfort thanks to the DUAL-THERM double heating system with infrared radiation and natural convection: heat diffused rapidly and uniformly in the environment, in addition to an incomparable natural radiant effect thanks to the wide frontal surface, for a pleasant, enveloping and prolonged heating in time.

Intelligent power management features optimize the consumption levels for the maximum energy savings.

Furthermore, the Radialight App allows you to remotely control ICON Wi-Fi radiators, in order to manage temperatures, absence periods and to ensure a very low consumption level.

## Control System

With its user friendly keypad, ICON allows to have a quick and easy access to the radiator control features.

ICON Wi-Fi integrates a digital display to manually access the radiator control functions. Therefore ICON Wi-Fi can be used also when Wi-Fi is not working.

Combined with your home Wi-Fi and the Radialight App, you can manage your ICON radiators installed in your home, creating a multi-zone system and independently controlling the comfort level of each room; obtain consistent energy savings thanks to weekly programming or simply manage heating during your periods of absence.

Furthermore, the Radialight App will allow you to view, analyze and compare the consumption of each individual radiator to avoid unnecessary energy waste.

## Features and Technical Data

ICON WiFi is available in 2 different colors: ice white and anthracite grey, both with satin finish. 4 different models with power from 750 W to 2000W suited to heating rooms from 5 sqm to 30 sqm. The bathroom kit, supplied separately as an accessory, can be adapted to suit all the versions. It is made up of two aluminium towel rails and a bathrobe hook. ICON WiFi becomes a towel rail in your dream bathroom.
